

## Master program in Safety/Fire Management

### Curriculum for Safety and Fire Management Courses:-

The Master,s Program in Business Administration (Safety Management) Or (Fire Safety management) of the N.I.F.S.E is to equip practicing Executives and Managers, working in Private / Public Sector Undertakings / Banks/ Educational Institutions. Industries and other similar organizationsso as to enable them to enrich their managerial skills, decision-making, and to enhance their problem solving ability, through case studies, lectures, role-plays and business games with special focus on Fire &Safety Management.

Management courses that we offer are highly compatible with International standards. It has been our constant endeavour to provide the best possible study material for the students. The International curricula added in our syllabus are an effort to make this possible. We want our students to excel in what they are doing; creating a Safety Manager/HSE officer is not the aim for us, its making a Manager who can really take its organization on a high with Zero Accident Policy.
